# **Limitations and Opportunities**

#### Limitations

- Some service requests are likely overrepresented or underrepresented
- Unmet needs are underrepresented
- Only includes calls and texts, not web searches
- Asset maps do not pull from live resource database
- Location may or may not be linked to eligibility for service

#### **Opportunities**

- Much more data analysis
- Partnering across organizations to make analysis richer
- Segmenting data in new ways (differentiating in mapping between organizations that serve the neighborhood where they are located v. whole county)
- Different ways to categorize data
